EXPERIENCE

General Assembly, New York, NY

Jan 2016 – April 2016

Android Development Immersive

- Created android programs using Java, xml, Android Studio, Google Material Design and paper prototyping
- **When It's Write:**
 - <https://play.google.com/store/apps/details?id=com.austinjones.whenitswrite>
 - App that used the Firebase API to allow users to store song lyrics that they have written and be able to access them via the app.
 - Implemented the Facebook API for users to log in.
 - Created a custom adapter to move data between the application and the Firebase Database.
- **ToDo:**
 - App that used a singleton and an array adapter to create a to do list.
 - In Your 'Hood:
 - App that used a SQLite database for users to search for location information, look at location details and favorite locations.
- **Are You Happy?:**
 - Worked with a group of two other developers and one project manager to make an app that asks users behavioral questions using HPE's APIs to determine their mood in their March Hackathon.
 - Makes use of HPE's speech to text to convert users' answers to text.
 - Incorporated HPE's sentiment analysis to determine the user's mood.
